County Survey Disk in E side CP N 43.16'
County Survey Disk in SW side PP #10651 NW 48.16'
This corner is located by GPS measurement

Corner History:

1853 Gov't Notes West on true line between setions post. Made mound with trench and planted osage orange seeds north and south between pits and trench. 80.00 chs. To section corner.

5-1878 Thomas Hunter (P. 343 No. 337), County Surveyor, states corner missing and no evidence of or knowledge. Set stake well down midway and on line.

8-7-1974 County Surveyor dug with backhoe and found the remains of an old stake. Since the south Sec. Cor. 3-4 was tipped and leaning, the stake found at the quarter corner was 1/1' east and .6' south of exact midway and on line. Upon remeasuring and running the section line, reset the corner exactly midway and on line by electronic measurement. Set a C.I.M. over an iron rod at 2644.16'.

11-09-2001 County Surveyor found CIM down 0.6' in good condition.
