Corner History:

5-21-1875 Thomas Hunter, County Surveyor, (Book A, Page 278, Survey No. 275) set stake at intersecting quarter lines. 1/16th West set stake on line and at government proportion measurement at 19.87 chains (1311.42') then 19.08 chains (1259.28') to West 1/4.

9-24-1973 County Surveyor visited area of center and found huge corner post to fences north-south-east-west. Fount nothing. 1/16th West area brushed out. No chance of stake surviving.

10-1-1997 Roger Brand & Associates used computed center at intersecting quarter lines.
