Corner History:

5-1854 Michael Karrick 40.00 set quarter section post. Burr Oak 15 S 80 E 916. Dug trench.

11-1857 J. Fellows (P.42 No.64) used corner set 1/16th East 19.92 and center (faint print see record).

6-1875 T. Hunter (P.280 No.277) found original stake standing in range of fence (likely East) B tree so far away didn't look for to test corner. 1/16th West set stake M & L 19.98 1/2 to center stake.

7-1966 J. Kerr run straight line for grading road between section stones. Culvert near 1/4 corner very near centerline of corner ever required could be set M & L without much of any error as long as it was in range with fences East reasonably.

9-19-1984 County Survey Crew dug from the t.n. (set in centerline N-S road and in line with fe East) for 8' West, 4' North, 4' East, and 5' South by 4 1/2' deep to clay. Conditions very poor. Clay and black dirt mixed at clay line. Dug from t.n. (1/2' N of C.P. to fences E-W-S) North for 5', East 1 1/2', and West 1 1/2' found pile of stone 2 1/2' North of t.n. Found old post stub 1.8 N and .9 E of t.n. Found possible old stake mark on NE side of post stub and 2.8 N and 1.8 E of t.n.

6-14-1985 County Survey Crew set 20" CIM over 5/8" re-rod as corner. Corner set in line with fence east (as per T. Hunter survey) and at double the measure from the N-S 1/4 line sec. 9 over the fence South at the 1/16th East of the center 9 (surveyed by Hunter). Corner comes in the center of the N-S road.

4-22-2009 County Survey Crew found Cast Iron Monument down 0.4' in good condition.
