Certificate of Location of Government Corner

ID#: 711206 **Description:** 1/4 SEC COR 11 12 71 **Date Set:** 11/9/2012 **County:** Olmsted

Section: 12 **Township:** 107N **Range:** 11W **Monument Description:** Cast Iron Cap on Telspar Pipe

Reference Ties:

The monument is at the surface.
The corner is 1/2' north of E-W fence.
Post with sign 2' South

Corner History:

1853 Gov't Notes Wm. A. Jones, set 1/4 sec corner post M&L 40 chs 2640, set post in mound of stone. Corner near beginning of sharp ravine running NNW could be wooded, common land north and east. Farm boundary lines west and south, north 1/2 of line really rough, no lines to follow. No known records.

1-13-2010 County survey crew visited the area and found bolt 1/2' north of E-W fence.

11-9-2012 County survey crew visited the corner to gather more information about the previously found bolt. Searched for but could not find the bolt on this visit. There is remnants of a fence south which meanders from tree to tree. The fence no longer intersects directly with the E-W fence but it appears the intersection would be several feet east of the found bolt. Set 5' telspar pipe with cast iron cap at the previously measured bolt location.
