Corner History:

9-1853 Gov't Notes William A. Jones, Deputy Surveyor North between sections 35 and 36. 80.00 chs Burr Oak 10 in. N67 1/2W 28 lks. Burr Oak 11 in. S22 1/2E 124 lks. Burr Oak 9 in. N25E 260 lks. Burr Oak 11 in. S15W 116 lks.

10-1896 William Fraser (P. 595 No. 541) states that a Mr. Dowling claims original stake stood by west side of corner post and the N.W. bearing tree still was standing also placed it at That location.

10-1902 William Fraser used corner fence post as corner.

10-8-1974 County Surveyor dug 4' x 6' hole at the corner location and found nothing. There was no evidence of corner post. Reset the corner by doubling the line and measure from E. Sec. Cor. 25-36 over 1/4 Cor. 25-36 as per W. Fraser survey.

11-15-2000 County Surveyor found CIM up 0.2' with top half broken off, under fallen tree trunk. Removed CIM and found 3/8" rerod under CIM down 2'. Set telspar pipe w/CIC over 3/8" rerod up 0.2'

12-1-2000 County Surveyor reviewed the location of this corner after noticing the monument location does not match what is described in the 10-8-1974 entry. Further investigation revealed an error in the 1974 field traverse which caused the monument to be set 0.6' southeast of its intended location. County Surveyor computed a new coordinate location using the method described in 10-8-1974.

12-28-2011 County survey crew found cast iron cap on telspar pipe in good condition but at the incorrect location as mentioned previously. Removed and set a new cast iron cap on 4' telspar pipe at the coordinate location computed on 12-1-2000.
