Certificate of Location of Government Corner

ID#: 831409 **Description:** SEC CEN 14 83 **Date Set:** **County:** Olmsted

Section: 14 **Township:** 108N **Range:** 13W **Monument Description:** Note: Information regarding this center of section is provided for reference purposes only. A professional land surveyor should make the decision whether to use any existing survey monument or the computed intersection of quarter lines.

1/2" pipe w/cap RLS #14888

Reference Ties:

Corner History:

9-28-1894 William Fraser, Deputy County Surveyor, (Book A, Page 552, Survey No. 509) planted "square block" as center of section at intersecting quarter lines. The corner came 2-1/2 links (1.65') west of corner post of fence east.

7-27-1983 County Survey Crew dug at intersection of lines from County Highway Department iron at West 1/4 Corner to traverse nail at East 1/4 Corner (set in line with fences east & west) and Cast Iron Monument at North 1/4 Corner to corner post at South 1/4 Corner. The point falls in the center of a 3 corner post fence corner and on west side of 2' diameter chunk of concrete where a fourth wood corner post had stood. Dug out area between posts and west on north side of the fence west by 1-1/2' deep to clay. Found nothing and very little chance for anything to survive.

3-25-2013 Fangman Land Surveying set 1/2" pipe w/cap RLS #14888 at intersecting quarter lines.

2-18-2019 Zillgitt Civil Design found and used 1/2" pipe at intersecting quarter lines.
