Certificate of Location of Government Corner

ID#: 943405 **Description:** S SEC COR 33 34 94 **Date Set:** **County:** Wabasha

Section: 34 **Township:** 109N **Range:** 14W **Monument Description:** The corner falls in Lake Zumbro

Reference Ties:

Corner History:

1853 Original Public Land Survey notes state that a post was set for the Southeast corner of Section 33, T109, R14 at 80 chains from the southeast corner of Section 34, T109, R14 and referenced two 10" Burr Oak bearing trees. One at N 61 W, 114 links and one N 61 E, 96 links.

1916 Rochester Power Dam survey measured 672.2' from the North Quarter corner of Section 3, T108, R14 to the southeast corner of Section 33, T109, R14.

11-2001 During their Mazeppa Township remonumentation project, Johnson & Scofield, Inc confirmed that the corner location was in Zumbro Lake. A mathematical position for the corner was arrived at by reconstructing and analyzing Wabasha and Olmsted County field measurements and record data for the south correction line of Mazeppa Township. This position perpetuates the 1916 Power Dam survey at 672.2 feet west of the North Quarter corner of Section 3, T108, R14. Also, a meander corner on the south line of the Southeast corner of Section 33, T109, R14 was recovered at approximately 864 feet west of the mathematical position for the Southeast corner of Section 33 and is considered as being on the south line of Section 33 and a witness to the southeast corner of Section 33.

12-28-2001 Certificate of Location signed by David Johnson, Wabasha County Surveyor provides a Wabasha County HARN 96 coordinate of North=132062.055, East=441167.593. No monument is set at the computed location.
