Certificate of Location of Government Corner

ID#: 943504 **Description:** S 1/4 SEC COR 35 94 **Date Set:** 10/08/2001 **County:** Wabasha

Section: 35 **Township:** 109N **Range:** 14W **Monument Description:** Wabasha County Monument

Reference Ties:

The corner falls 1' north of centerline of E-W twp road and 23' east of centerline of driveway north
This corner is located by GPS measurement

Corner History:

1853 Original Public Land Survey notes state that a post for the South Quarter corner of Section 35 T.109 R.14 was set at 40 chains from the Southeast corner of Section 35 T.109 R.14 and referenced two bearing trees. One a 10 inch Burr Oak N47W and the other a 12 inch Burr Oak N59E at 61 links.

8-2001 Johnson & Scofield, Inc. spoke with Wayne and Sue Aderman, owners of the SE1/4 of the SW1/4 of Section 35, and they produced a survey John Kerr did for them in 1965 which showed a 1 ¼" iron pipe set as the South Quarter corner for this section. An iron was found approximately on line with a fence running north and in the centerline of an east-west town road. Original bearing trees were not searched for.

10-8-2001 Johnson & Scofield, Inc. excavated a 5'x10'x4' deep area with a Wabasha County backhoe at the intersection of the centerline of a township road, a fence line running north, and a found Kerr iron pipe set as the South Quarter corner of Section 35 T.109 R.14. A 1.5'x.5'x2' limestone was recovered 3.5' down and just below an old road bed. It was approximately .5' north of centerline and leaning west. Its bottom, however, appeared fairly undisturbed. The found stone was accepted as a perpetuation of the Original Public Land Survey corner. Two 1" by 18" iron pipes were placed, one on top of the other, with a 2 inch diameter Wabasha County cast iron cap affixed to the top of the pipe. The found Kerr iron was North 61 degrees 35 minutes 31 seconds East and 1.81 feet from the recovered stone monument. Wabasha County HARN 96 coordinate from Wabasha County Certificate of Location: North=131975.509 and East=449051.277

9-26-2005 Olmsted County surveyor found Wabasha County monument, down 1.1' in good condition.
