Something as Center 31

9-3-1982, Center 31: Found t.n. set 19' North of c.p. to fences E-W-N in 1981. Nail appx ½' East of the line of the fence South. Dug from a point 13' South of the nail, South to the corner post and West 3'+ (4' West @ S. end). A big elder tree 3½' West and 4' North of the c.p. made that area hard to dig. We first found the remains of a stake, appx 3" diam. Top down 12", running down appx 6"+. We also found a 2½" x 8" x 15" shattered limestone (up 2") with a ⅝" re-rod on the North side (down 1'). Set piece of the limestone around the rod. The rod is 1½' West and ½' North of the c.p. and 18.17 South and 1.9 West (eyeball) of the t.n. (diag. = 18.27). Should be shot. The stake was .25 East and .55 North of the rod, and the stone .8 South and .3 East of the rod.

There is a triple red oak standing on the E. side of the fence South which could be sucker from Hunter's B.T. which would place the corner appx 3' North of the E-W fence.
