(File with S1/4 Cn 33, Orion)

8-14-1979 We dug with backhoe in line with the fence South and the center of the (North half of) road, the road being too narrow to dig more than half at a time. We found fill to a depth of 4' and on shattered, crumbly bedrock. We dipped the sides of the hole but got nothing. Conditions looked so poor we did not dig further at this time until we get more information. Hole centered 35' West and 6½' N. of P.O.T. Nail at S1/4 33
