5-1902 TT Fraser P16B Sl 104-14, south lines of
sec. 34-35-36 105-14 John Beach, Robt Sutton, J. McBride
found boulder stone in center of mound.
- Meas west 40.00 to stone 7x8x24 set
- Meas east 39.98 to township ingraved corner
- Meas west to twp cor (NE cor T 104-14-
2.11 (139.26.

6-1892 TT Fraser P488 no 413 Sl 34 Stewart Morse.
set scrap shaped boulder 4x10x18 by elaborate details
in relocating SE cor 34 105-14.

(over-

Trace from S 1/4 37 to S 1/4 36. - this corner (S 1/4 36) was
found after finding NE 1/2 1 (a stone hub corner)
and take meas exact by govt notes some 139.26'
found remains of old stake in mound which agreed with
govt notes exactly, which seems to be only one in use here
that date. - at S 1/4 36a "scoop shaped boulder stone"
4x10x18. Meas was short 7 1/2 lks for 2 miles 4.45'
or 2638.76 each 1/2 mile

9-15-71 Co surv found engraved township corner
at NE corner 1 104-14. - Meas exact 139' and found
fair fence running north. dug south of post (pulled north
by pressure of fence running north) found several likely
stones, but angry gennsey bull attacked us had to abandon
project. Never drove full mile.

South 1/4 36 High Forest 105-14 (2)

6-12-95 Dug @ a point on the E-W section line #543604
and 139.26' East of the NE cor of 105-14, an engraved stone. There are many large boulders and shattered limestone pieces around a large old corner post that is broken off at the surface of the ground. This area was totally disturbed. Found nothing that looked like the 4x4x18 W. Fraser [redacted] "scoop shaped stone." The post stub is ± 3.1' south & ± 1.3' west of the T.N.
