/ 8-9-71 found limestone #552809

1/4 corner Center 28 Rock Dell 105-15.

7-1893 H Fraser P523 No 488 L28 Frank Roeder.
set stone 2 x 7 x 22 at true Peter Lee.
inters. of right lines. Bottol Magnuson.

8-9-71 Co surv. ran random aerial from center blacktop at 1/4 28-29 a nail set 52 77' north of Co HD CIM set at 1/4 32-33. somewhere near conflicting records.

found badly shattered L stone 2 x 7 x 19. on west side of corner post of fence south and east. replaced piece of limestone with good-sized sapling with slim boulders on 2 sides of sapling. line fell 7.4' south of corner found

(over)

Conit line east on 64' ℄ north. this line corrected to true line fell. 2.6' south ℄.00 point set in line fences east and west. proving center stone as found to be correct and as. 1/4 27-28 corner not be found and 1/4 28-29 a stone 6x6x30 set N&L 2635, 38 by W Fraser 7-1893 and found again by Hunter in 5-1896. now in very deep fill (10'±) it would seem 1/4 28-29 would have to be reset by line and meas from west P598 Hunter creating necessity of reproducing center 29 from west then pushing line east and setting 1/4 28-29
