GOV. NOTES - 1853 - J BALL SET SECTION CORNER POST 80 chs NORTH of 27-28-33-34

10-5-1979: 1/16th South - We dug with the backhoe from a point set up at Perry's measure from Sec. Co. 21-22-27-28 and in ℄ Co.Rd. 10 East 2', West 4', North 5', and South 5'. We dug through 11½' of fill before getting to black dirt and at this depth with the time we had left we only got a look at a few square feet beneath the point set up. Found nothing. There was no old road in this black dirt and it was much deeper than we expected.
