6-20-85, 1/4 Cor 9-16: Dug as follows from the tranise nail (set in line with fence south and 13 1/2' north of the centerline of the E-W road):

See Card Z

1/4 Corner 9-16 Ejota 106-12 ②
#620904

Dug 4½' deep to clay. There was hard packed dirt at 4' deep when they used to drive. Mrs. McKenzie stopped and said before the present road was graded

there was only a dirt trail here worn down in. Did not find Dill Frosen stake and no old corner post but have only dug 3'± South a straight line between section corners. Concentrated North 1st since 1/16 North and 1/16 South indicate a corner north of straight line (See Drwg 5-3A)

6-21-85 1/4 Cr 9-16: Dug from south edge of hole dug 6-20-85 to south edge of road. Found nothing. Condition poor here

7-22-85, 1/4 Cor 9-16: Set a 20" CIM over a 5/8" re-rod as the corner at the intersection of the line from the NW Cor 16 to the NE Cor 16 and the line from the S 1/4 Cor 16 over the Center 16. Corner came 1' south of the ℄ of the E-W road and 2' West of the fence line south

RP's: Punch hole in top E. end C.M.P. in field drive SE 32.63

Punch hole in top W. end C.M.P. in field drive SW 29.12

CSD in E. side pp# 493 NNE 34.82

Meas. West 2645.33. Meas. East 2627.91 Although corner not midway as intended by W. Fraser, corner being on line from S 1/4 Cor 16 (Fd) and Center 16 (Fd) we believe we have re-established Fraser's actual location and also Fall just 2' west of Fence line while midway post is 11' west of fence
