found boulder with hole in top P14B:

-1/16 west found limestone 3"x4" top 1313.2 over.

- Meas east rather indefinate. 2626.4 ~~or 2636.5~~ which was double the distance from center to 1/16 west not a conclusive deduction as Fraser had 40.03 to stone. Fraser had 1312.74 against 1313.2. for the meas from center 26 west to 1/16 stone set M & L.

9-6-73 found recorded 8 x 20 x 20 reconded boulder with hole in top close to surface. 9.25' south of I 90 N.R.W. fence in line of farm fence north - I 90 grading did not cut away any soil at all. so stone close to surface yet. - drove 5/8" x 14" irons on N and S sides and 1 x 2 stake on E and W sides no other R P's. left stone as found.
