9-1969 Set C.I.M. over 1¼" Pipe Boulder on west side ①

¼ Corner 13-14 Rochester 106-14 #641306

6-1857 T. Hunter Pg. 31 No. 48 shows ¼ Post.

1/16 South 19.93 m&L

Dec. 1875 T. Hunter Pg. 289 No. 285 ¼ Post missing, and neither found nor fixed the Exact Point where it originally stood. or should stand. further than that it is known by the Testimony of S. Olin that it stood in exact line of a Board Fence running both East & West and that said ¼ Post stood for a number of years in its mound in said Fence - and as parties Interested in this Survey owned land both East and west of this Corner we did not deem it essential that the exact Point east & west where said ¼ Post stood should be determined. - Con't (over)

Cont

when the true Point N & S was known as determined by the aforesaid East & west fences.

and as Father Corroboration of the Correctness of both the points G & H., we Found on measuring Carefully from G to H that it Corresponded exactly with the measurement between the same points, as recorded in Survey No 48 Pg. 31 Made by me in 1857, when the original Corner and Mounds were all standing

3/29/89 FD 3/4" X 11" RE-ROD AT SURFACE, DUG OUT IRON FD CIM

1/4 Corner 13-14 Rochester 106-14 (2) #641306

6&10, 1895 Wm. Fraser Pg. 583 No. 532
Could not find Corner at this Point as it had been lost as given in Survey 285 given as Hunters survey, but in that Survey evidence was given that the corner use to stand in direct line of Fence running East & West. The post of said Fence still there, so we located Corner on line between C & E. and on line of Fence running East and west, Drove Stake marked 1/4 S. with stone Set by its side.

April, 1929 John Kerr Book 1 Pg. 19 Found Pipe as Corner 1/16 South Iron stake at 1315.4 then 1315.1 to Sec. Cor.

10-1948 John Kerr Book 39 Pg 72 use 1¼" Iron Pipe
Meas. East 2622.5 to 2" Iron Pipe at Center 13
1/16 South 1315.85 M&L to Stone at 13-14-23-24

9-18-1969 John Kerr set C.I.M. over 1¼" pipe with boulder on west side
