8-20-73 visited corner for elect meas east to
1/16 stone found described below.
stone is very pointed boulder down 8" in high area
no wood, no charcoal in clear dark soil, clay 18" deep
- corner lies 2' west of corner post & properly ties
fence south and east and North
- placed iron rod by stone with 2 piece brick and
other boulder piece a little above pointed stone Must
be careful to take small point as corner not larger ones.
- meas west to 22-23-26-27 1314.41. R 1315.71

over

C/M at 22-23-26-27 in precarious position. being 2' east of fence not in corner so modern plows could easily hook C/M which is only 4 or 5 inches deep and no accurate existing RPs if pulled out must dig down to stone to replace. C/M should then be put deeper or barrier placed by it. - Meas elect west twice Rwest 2639.34.
