found stone here (center SW¼ 14) but it was. 8
links too far west.

7-18-73 found 5"x6"x 20" ± limestone just N E of
corner post of fence N-S-W. Corner just barely north
and west of huge upland bog with local area also
partly subject to heaving action which accounts for
limestone being pushed partly out of the ground.
found evidence below where dark soil had been filled
into clay & rock sub soils which are close in bgared.
- placed 40 D nail below stone in center dark area.
with stone set vertically above. small saw blade on
S side - small short rod on north side
