No Msmts given on Plat.

over

McGhie, 1956 IBM property Survey

found Stone at 1/16 Cor. North of center and set 3/8" pipe along side of it, Then using 5 1/4 Cor. and this 1/16 Cor. set line for N-S 1/4 line, then using W. 1/4 Cor (a stone) and reset. E. 1/4 Cor. for E-W 1/4 line interseited Said 1/4 lines and set 1/2" rod as center Sec. 21 also set iron rod at 1/16 Cor. South of center.

McGhie, ± 1958-1960 reset aniron using the IBM Co-ord. System. and later either McGhie or Sdnkstone set a Cast iron monu. at this location. Top of monu. was broken and used as it was still O.K.

Aug. 1975 – Co. Surveyor – removed cast iron and dug large hole with backhoe To try To Locate Compton's Center did not find anything as IBM Grading & Construction probably destroyed any remaining evidence, Set Temp. nail.

Center 21 Cascade 107-14 (2)

#742109

McGhie * 1956 in IBM property, apparently did not find stone at Center but did find 1/16 stone N. and probably set Center 21 on line of S.¼ 21 to 1/16 N. of Center and on E-W ¼ line. Later a C.I.M. was set at this location and in July, 1969 McGhie and Betts reset C.I.M. after old C.I. was broken.
Corner falls in lawn on south side of IBM main bldg. and can be found with dip needle.

Note: This Center 21 does not check. The N-S ¼ line as N.¼ Cor. is now setand accepted. (M&L)
There may be an iron set at the 1/16 N. of Center 21 on N-S ¼ line as now used. R.B.

5-8-75 Dug to clay from broken C.I.M. (removed) 10' S and 6' W but found nothing.

Center of NW 1/4 Sec 21

8-8-75 Dug with backhoe and found dark spot in clean clay. Scraped and found pieces of glass as recorded. Accepted as corner location and Set 1/2" rod. Corner lies in gate in E-W fence
