9-11-1979 We dug from the traverse nail set in the center of the intersection, 3' East, 3' West, 4' North, and 6' South by 6½ to 7' deep to clay. Although there was an old road of a few inches of hard black dirt, the first foot of clay was badly disturbed. We did not find anything except a nail (60d) just beneath the blacktop.
