to be on direct line.
believe Center post very close and SW cor 17. at least 8' to far W as set.
Must find ancient plat of cemetery somewhere.
10-6-1981 Center 17; Dug from corner post East for 7', North 3',
and South for 1 1/2' by 1' deep to clay. Found a 4" diam.
black hole extending down 14" into the clay, 1 1/2' East
of the center of the post. Set a 1/2" re-rod in the

#851709 (2)

Center 17 New Haven 108-15

10-6-81 Cont.: Set 1/2" re-rod in the hole to hold its location. LRP { Spike in c.p. SW 1.35 / Spike SE 2.8

This mark is 5.6 E'ly and 4.5 N'ly of the t.n. (d = 7.2)

10-6-81 1/16 West: Dug from the c.p. here West for 6', East for 2', North for 1½' and South for 1½' by 1½' deep to day We found what may have been the remains of a stake (about 4" of wood and black mark) standing on the South side of an old post stub and 2' deep. This came 13.7 North and appx .2 East of the t.n. Drove a 1" board at this location which is 1.1 ESE of the new c.p. LRP { Spike in N side c.p. NW 1.32 / Spike in S side c.p. W 1.14

10-7-81 1/16 North: Dug from the t.n. East 3½ and South 2' by 1½' deep to clay. There was a lot of wire here appx 2' East of the t.n. but could find no trace of an old post or the stake. We were digging on line from the S¼ Cn 17 to the c.p. at the N¼ Cn 17 and on Hunter's measure from the E-W fence at the Center 17, although we could dig a little farther South to cover this letter. We did not dig farther West yet because there were some large boulders there and so many tree roots. The t.n. is only slightly So. of the fence West. t.n. { 1.94 NW / 1.28 NE

10-8-81 1/16 North: Dug from t.n. for 6½' West and for 2' South Found one ~~mark~~ mark that could have been a stake mark .05 and .10 South of the t.n. This point 2' South and 2' East of the oldest c.o.p. of 3 but is only slightly South of fence West and slightly East of fence North mark { NE 1.4 / NW 1.95
