16 south. set drag tooth -

Disc in TP NE 33.6 - Disc in twin poplar SE 82.54 Found 1979

Newer than 1959 - Disc in stub P NE 58.12 - Disc in TP SW 54.45 Found 1979

Disc in TP SE. ~~41.95~~ gone 1979 Found Disc in power pole - 1979

Meas West. 5211.0 to 1/16 betw SW 31 and W 1/4 31, over

5282.6 - Meas east to assumed 1/16 corner

10-19-71 dug entire road surface 4' N & S & fence east. Sta 2639± from stone at NE 31. - corner in area where road has quite sharp slope from some 300' south east, road worn out & gone to bare clay and corner with it. A lost corner. Could be replaced fairly close by line from stone (C/M over) at E 1/4 32 and center 32. property corner & 3 farms. Considering that 1/16 corner west & E 1/4 32, set twice, entire fenced & Mile line could be considered a monument in itself enough to obtain N-S & corner. Fence leading east from 1/4 31-32 has deeded curve in it close to corner. - Could set corner in center road as recorded or run aerial & intersect. Believe this not advisable.

- Meas NE 31 to SE 31 as set 5274.1

Midway 2637.05

5-7-1979 1/16th South (Remon. BK 1979 Pages 49 and 50)
Set a concrete nail on a traverse point 2' North of ℄ Co. Rd. 14 and in ℄ roads North and South and at 58.12 from an old C.H.D. disc in a cut off pole NE and at 82.54 from and old C.H.D. disc in twin poplar SE. We also found an old C.H.D. disc in a power pole SW. Using the C.H.D. tie to this pole and the cottonwood tree would pull the point West appx .7. We dug from a point 1' South of the traverse, South for 4', West for 4', and East for 4' as follows:

There was an old road 4' deep with 6" to 1'

of black dirt beneath. There was still frost in this dirt but we were able to dig through to clay. The only thing we found was one small piece of limestone (about 5" in diameter) shattered just beneath the old road 3' South and ½' West of the traverse nail and a larger piece of limestone standing on top of the old road in fill 4' South and 3' to 4' East of the traverse nail.

12/8/97 @ ¼ Cor 31-32: Vince Fangman useing location in ℄ road and line of fence East. See Cert 8532-3933 and Cert 8530-3209. OK'd this point for land consultants use also. Will set monument according to Vinces measurements
